

Continuation of Statement / ~~Interview~~

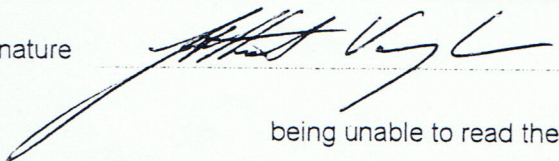

C. A. STOOKE - VAUGHAN

stood in my way. When I would move to the right, he would move to block me and when I then moved to the left, he would move to block me again. This happened several times, during which time Graham was no more than six inches from me. I felt extremely threatened at this time and knew I had to get out of the property before he hit me. I then took a hold of his shirt and tried gently moved him to one side so I could get past him to calm the situation down. This caused Graham to really lose his temper and he started to grapple with me. I don't know exactly what happened next, but we both ended up outside Julies address on the pavement where Graham had me in some sort of a head lock, against a light coloured van, with electricians on the side. He then proceeded to kick my legs away from underneath me and I fell to the ground very heavily on my left side injuring my ribs in the process. I was then aware of Graham kicking me a number of times to the middle body area. I was very scared and feared for my safety at this time and tried shielding myself with my left arm. I then tried getting to my feet, but as I did so Graham jumped onto my right side, holding me down on the floor. He then stuck his finger into my mouth and forcefully started trying to rip at my lower jaw. I was scared at this time that he may pull my jaw out of place, so I bit his finger. This made him take his finger out of my mouth immediately. I then tried to ease myself up to my feet again at which time Graham grabbed my head and unbelievably then started ramming my head against the pavement. He banged my head three times. Luckily my left arm was under my head so it cushioned the blows a little. I was terrified at this time. Once again I tried getting up off the floor, at which time I felt two hard blows to the left side of my face, which caused me to collapse down fully onto the floor. I screamed out in pain at this time. Graham had obviously punched me as I felt one of his knuckles going into my eye socket. I was in excruciating pain at this time and was feeling very disorientated with things. The whole incident lasted no more than a couple of minutes, but seemed to last forever. I then gradually got to my feet, realising there were a number of other people gathered around. During the assault Julie had been trying to pull Graham off me shouting out at Graham 'GET OFF HIM HE IS SERIOUSLY ILL'

I then realised I had double vision and was very dizzy. I saw Graham stood in front of me about four feet. He still had a grin on his face, as I walked past him and over to my car for safety. I feared he would have another go at me again, as he had that mad look on his face again. Julie then got into my car with me and we drove off a short distance to get us out of the way. We parked in the Gro car park, Llanidloes for some time, then returning to my address. The Police turned up a short time later.

I would like to add that I am currently suffering from a ruptured hernia, prior to this incident, which
