

Continuation of Statement / Interview David Avram EGER

I would describe the male on the floor as white, medium height and build, short but not shaven mousy brown hair, I think he was wearing dark coloured clothing. The whole incident that I saw lasted no more than 30 seconds, it was still light out and I had a clear and unobstructed view of what I saw. I have known Graham and Julie for approximately 18 months and can clearly recognise them, I was shocked by what I saw as I did not think Graham was a violent person, I do not know Graham well but I always say hello when I see him. At some point during the incident I heard a male voice who was not Graham shout out "OH MY GOD", but I cannot remember if I was outside at that point or inside the shop. I did not see anyone else other than those mentioned in China Street during the incident.

I would rather not attend court in relation to this incident.
